

## A-TAC TACTICAL GOGGLES

---

### BRAND: PAULSON

The A-TAC Tactical Goggles are a protective goggle made from a silicone frame and strap, polycarbonate lens, and polymer allow components to specifically address the needs of a tactical operation. These goggles have been designed to meet the performance specifications of ANSI Z87.1+ in order to protect against impact, splash, smoke, particulate matter, and chemicals.

The lens features a hard coated outer lens and a superior anti-fog inner lens with baffled top and bottom vents for chemical splash protection. The "quick strap" elastic adjustment allows the operator to custom fit the goggles to their needs. This goggle is ideal for forced entry, rescue operations, emergency medical operations, and victim extraction.
