AVAILABLE

BRAND: PAULSON

The BS-8 capture shield is a polycarbonate hand held body shield with ergonomic and protective features and is specifically designed for use in cell extraction. Measuring 20" x 36" and .150" thick, the shield itself has a superior optical quality and workmanship that provides excellent impact, splash, and fragments protection.

The strong double handles allow a firm grip and is uniquely designed to allow 2 people to grip with both hands on each handle in case extra holding power is needed. Each handle is dielectric to prevent electrical pass through.
