

CROWD CONTROL CHEMICAL AGENT MODULE

BRAND: AARDVARK

The Crowd Control Chemical Agents Module is designed for rapid deployment by a single grenadier in a crowd control scenario. This module is intended to provide chemical agent capability for everything from large crowds to small, limited disturbances. This module contains Hanball, Triple Chaser, and Spede-Heat Continuous Discharge CS grenades, large style smoke grenades, large sized OC spray, Skat-Shell and Spede-Heat 40mm CS projectiles, 40mm CS Muzzle Blast munitions, and a load bearing vest to carry the chemical agents.

All of these items are integrated in hard plastic cases outfitted with visual guides and custom foam for rapid identification of items and ease of deployment.
