

EMIS EXPEDITIONARY MOBILE INSPECTION SYSTEM

BRAND: LUMENYTE

The Expeditionary Mobile Inspection System (EMIS) offers Vehicle Checkpoint/Entry Control Point capability for designated areas during daytime or nighttime operations. The EMIS provides enough equipment to set up a single traffic inspection checkpoint while remaining man-portable being integrated into a single case on wheels.

Featured items within the EMIS include a Security Illumination Mat System (SIMS), lighted search mirrors with replacement surfaces, inspection wands, and both standard and rechargeable flashlytes.
