

ESD EMERGENCY SIGNALING DEVICE

BRAND: LUMENYTE

Emergency Signaling Devices (ESD) ultra-bright flashing LEDs are visible in 4 directions up to a mile away, attracting the attention of drivers and pedestrians early and often. ESD's compact, flat design stays where it is put - no uncontrolled movement as with standard incendiary road flares. The heavy duty molded plastic case is designed to endure extremes in roll over weight and will with-stand dirt, snow, fuel, and oil.
