

LRAD 1000XI INTEGRATED SYSTEM

BRAND: LRAD

The Model 1000XI Integrated System is a power efficient, long distance communication system designed for applications ranging from critical infrastructure protection to coastal waters, border and port security, and large vessel and vehicle installations. The ease of use, multitude of features and remote capabilities allows for increased coverage from a single operator that is a safer alternative to non-lethal deterrent measures. The 1000Xi features a rugged carbon fiber emitter head integrated with electronics and amplification. The standard MP3 Control Module allows for playing back pre-recorded messages and the all-weather microphone for live broadcasts.
