

TASER AUTOMATIC SHUT-DOWN PERFORMANCE POWER MAGAZINE (APPM)

BRAND: TASER INTERNATIONAL

The Automatic Shut-Down Performance Power Magazine (APPM) is a lithium energy cell power supply for the X26P and X2 TASER handles. The Auto Shut-Down Performance Power Magazine (APPM) is a modified TASER CEW battery which shuts down the high voltage output of the CEW after 5 seconds and which also contains a built in speaker that alerts the user to the impending shut down. The APPM provides an audible beeping alert for the last two seconds of a trigger activated firing cycle before automatically shutting down the device.

The APPM has no impact on the functionality of the ARC switch.
