

## X26E DIGITAL POWER MAGAZINE (DPM)

---

### **BRAND:** TASER INTERNATIONAL

The Digital Power Magazine (DPM) features 195 5-second firings when at room temperature. It is able to assist with consistent power by incorporating lithium power cells and an onboard memory chip to keep record of the remaining power level. The DPM memory keeps information of the energy cell performance and life expectancy of the energy cell pack.

Designed for use with the X26E.
